

SOME OF AMERICA'S BEST AT THE OLYMPIC GAMES

All eyes are turned toward Antwerp, Belgium, where America's best are confidently looking to win more laurels. Here are some of the record-breakers and hopefuls.

4,000,000 PEOPLE

Annually use these tablets of organic iron—Nuxated Iron—to build up red blood, strength and endurance.

Dr. H. B. Vail, formerly Physician in the Baltimore Hospital and a Medical Examiner says: "There are thousands whose bodies are aging and breaking down at a time when they should be enjoying that perfect health which carries defiance to disease simply because they are not aware of the condition of their blood. By allowing it to remain thin, pale and watery, they are not giving the natural life forces of the body a chance to do their work. Iron is a red blood food and in my experience I have found no better means for building the red blood corpuscles and helping to give increased power to the blood than organic iron—Nuxated Iron. Nuxated Iron comes in tablet form only and does not contain any ordinary metallic iron but only the finest quality of purified organic iron which is easily assimilated by the blood."

NUXATED IRON

UNIVERSITY OF MISSOURI COLLEGE OF AGRICULTURE AT THE STATE FAIR, SEDALIA, AUGUST 14-21

Educational exhibits at the State Fair, Sedalia, August 14-21, will be made by departments of the University of Missouri College of Agriculture. These exhibits will give in brief results of experiments and projects carried out by the college. They will be supplemented to some extent by lectures and explanations, making the exhibit comprehensive. These showings of results are based on long experience and wide observations, making them of great value and importance.

Works in Soils

An exhibit showing the means for testing soil for acidity, the manner in which the college is helping the farmers in this respect, the results of these tests throughout the state, the means of correcting soil acidity and an exhibit of samples of lime. There will be men to explain to farmers the whole matter of importance of lime especially in connection with such crops as clover and alfalfa, and to answer questions.

There will be display of the work done and the results secured through the outlying soil experiment fields. These fields have been in operation fifteen years and represent the most important soil types in Missouri. Fifteen fields are now in operation. The results will be shown through the use of photographs, charts and very probably some crop samples from one of the experiment fields near Sedalia.

An exhibit will be made of inoculating material for leguminous plants, particularly alfalfa, wheat, clover and soybeans. An attendant will be present who can give full information regarding this material and give demonstrations in the method of inoculating seed.

Work in Crops

The field crops department will exhibit all the more common varieties of corn, sorghums, millets, soybeans, cowpeas and wheat that are adapted to Missouri conditions, with notes as to their relative usefulness in various sections of the state; the chief types of wheat, oats, and barley; charts showing the relative yields of early oats, late oats and barley in North, Central and South Missouri, and will demonstrate the relative yields of red clover and alsike clover that may be expected on uplands when given good soil treatments and proper seedbed preparation. Samples of plants will be shown, together with the description of soil treatments given to produce the plants on the Experiment Station fields.

Animal Husbandry

The department of animal husbandry exhibit will contain charts and data showing the value derived from the use of purebred sires in the production of sheep. It will also carry illustrative material and data showing the feed required to grow draft colts through the first winter of their lives. It will also carry facts and photographs concerning the use of red clover for farm work. It will also show information concerning the methods of profitable pork production and the use of corn silage in rations for fattening cattle.

Boys' and Girls' Clubs

The Missouri Boys' and Girls' Clubs will make exhibits of sewing, baking, canning, vegetables, poultry, pigs, and calves. There will be two sections of demonstrations, one in crops, poultry, and live stock arranged especially for boys, the other in home economics arranged especially for girls. The aim of these demonstrations is to show some phase of club work, and are put on by teams of two or three members. There will be demonstrations in canning, baking, sewing, hot school lunch, culling poultry, judging seed corn and caring for live stock.

The stock judging contest will be Monday, August 16. It will be based on judging draft horses, mules,

beef cattle, dairy cattle, swine and poultry. A premium will be given for the best judge in each class and a sweepstakes premium for the one making the highest general average in all classes. There will be a special dairy judging contest Tuesday, Aug. 17, to decide on the state winner to represent Missouri at the National Dairy Show, at Chicago, in October.

Swine Breeders' Associations

are offering special premiums as inducements for club members to make exhibits of their pigs.

Work in Dairying

A creamery and milk plant will be in operation showing the actual handling of market milk and the manufacture of butter and ice cream. All steps in the manufacture of these products will be gone through.

On the production side of the work, there will be pictures and charts and other material showing college dairy cattle, individuals in the herd, students at work judging dairy cattle, doing milking and assisting with feeding and other work in connection with the herd.

There will be a feeding exhibit of the best dairy rations and combinations of grain mixtures to go with roughages which are available on most farms, the amounts of each kind of feed needed to produce a given amount of milk and the cost of the ration so that farmers will have good opportunity to get first-hand information through seeing actual results.

COUNTY COURT PROCEEDINGS

The County Court met Monday, August 1st, in regular term, with Presiding Judge W. A. Mitchell and Associate Judges J. W. Jones and F. M. Matkin in attendance.

It is ordered that Jack Parsons Manhattan Comedians, a traveling dramatic tent show, be granted a license to operate on the payment of a license fee of \$5 for each performance.

In the matter of Improvement of Pilot Knob and Farmington road, J. D. Huff is ordered paid \$408 as superintendent of such improvement.

In the matter of improvement of Libertyville and Knob Lick road, C. S. White is ordered paid \$260 for such improvement.

Court adjourned over Tuesday, convening again Wednesday.

Thos. H. Holman files \$1,000 bond as County Highway Engineer, which is approved by the court.

J. L. Cleveland presents resignation as Justice of Peace of Pendleton township and Wm. Demler is appointed to fill vacancy.

Bills Allowed

August Wichman, wage as court house janitor, \$70; Circuit Clerk J. C. Heifner, salary, \$166.65; Bessie Brady, Deputy Circuit Clerk, \$75; Treasurer W. H. Coffield, \$125; Prosecuting Attorney W. E. Coffey, \$208.35; School Superintendent J. Clyde Akers, \$175; Probation Officer R. C. Tucker, \$50; Mode Coffman, Supt. Infirmary, \$70; I. N. Threlkeld, Asst. Pros. Attorney, \$50; Wm. Marcum, support, \$15; C. D. Rodgers, support, \$15; Mary E. Politte, support, \$40; Mrs. Mary Sandberg, support of poor at Knob Lick, \$29.50; Mrs. Theo. Gottlob, support of poor at Flat River, \$28; Mrs. Geo. Houser, support of poor at Desloge, \$20; Matt McEnroe, support, \$45; Mary Rock, support, \$10; Mrs. Campbell, support, \$10; Mrs. Grave-Hin, support, \$10; Mrs. Jane Langley, support, \$10; J. B. Compton, support, \$5; Mrs. Ingalls, support, \$5; Geo. Sizemore, support, \$10; Mrs. Topping, support, \$7; Geo. Sutherland, night watchman, \$2.50; Jacob Branning, road work, \$71.65; General Construction Co., payment on bridge work, \$3,000; Marvin W. Crowder, fees as County Clerk, \$341.65; St. Francois County Bank, repairs on four typewriters, \$38.50; Burnett's Meat Market, supplies for Infirmary, \$31.70; Thos. H. Holman, services as Highway Engineer, \$105.92; Lead Belt Telephone Co., service, \$38.45; E. J. McKinney, supplies for Infirmary, \$18.32; John Neidert, burying pauper, \$25; W. C. Robinson, driving truck for county, \$145.21; Missouri Prison Board, support of inmates, \$258.58; Missouri State Sanatorium, care of patients, \$54.64; John S. Boyer, support, \$29; Carrogated Culvert Co., \$46.08; St. Louis Binding Co., supplies, \$76.25; Klein Graver Co., supplies for Infirmary, \$138.67; Garford Motor Truck Co., truck tires, \$166.44; Pelt's, supplies for county, \$20.55.

A large number of accounts for primary election, as well as warrants for road overseers, are omitted from above list for lack of time and space.

Most of the time of the judges was taken up with auditing the vote of the late primary election, to be certified to the Secretary of State.

HAD CHRONIC BRONCHITIS FOR TWENTY-SIX YEARS NOW WELL AND HAPPY THIS IS WORTH READING

The experience of Mr. E. J. Toupalik, 1438 Rose street, LaCrosse, Wisconsin, is chiefly remarkable on account of the length of time he was afflicted.

He writes: "I have been suffering with chronic bronchitis for twenty-six years and every winter I would catch cold and become so hoarse I could not speak for six or eight weeks. I could get only temporary relief.

"This winter I was taken with Grip and was in awful shape. A fellow workman advised me to take PE-RU-NA. By the time I had used three-fourths of a bottle, the hoarseness was gone, also that tired feeling. I am on my second bottle. Hereafter PE-RU-NA will be constantly in my house. It is the best medicine ever put up for the purpose."

For any disease due to catarrh or catarrhal conditions, PE-RU-NA is equally dependable. Coughs, colds, catarrh of the head, stomach trouble, constipation, rheumatism, pains in the back, side and loins, bloating, belching gas, indigestion, catarrh of the large and small intestines, are some of the troubles for which PE-RU-NA is especially recommended.

PE-RU-NA can be purchased anywhere in either tablet or liquid form.

FARM BUREAU NEWS

All railroads will sell round-trip tickets to the State Fair for one and one-third rates.

Farm Bureau Day, Tuesday, Aug. 17th, bids fair to be one of the biggest days of the whole week. The Missouri Farm Bureau Federation has prepared a program that will be of interest to every farmer in the state.

Wm. Eckhardt of the Illinois Agricultural Association, will outline a plan of grain marketing that is attracting attention all over the middle west. His plan includes the building and operation of country elevators by the farmers, but these country elevators must be tied up with a state marketing association through which the selling is done. It will interest you to know the complete details as they will be developed by Mr. Eckhardt.

Secretary Cunningham of the Iowa Federation, will be one of the principal speakers during the day. Mr. Cunningham has the idea that the members of an organization need to realize that they have some duties to perform for the organization and should not merely wait for the good things to be handed to them.

Cass county is preparing to have a delegation of two hundred farm bureau members come to the State Fair on Farm Bureau Day, in a body.

Lafayette county is planning to have an automobile tour to the State Fair on Tuesday, August 17th, according to word just received from the offices of the State Fair. Several automobiles are expected to roll into the fair grounds carrying crowds of farm bureau boosters from Lafayette, all ready to participate in the first session at ten o'clock.

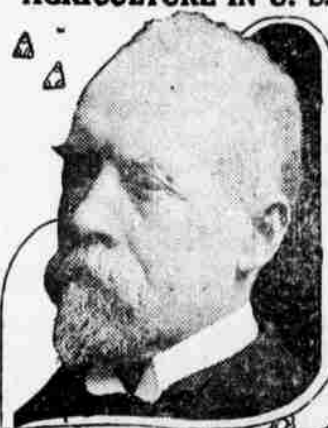

Every county agent and Farm Bureau president in the state, will be expected to have a large delegation present. What will our county do? If you go at all this year to the State Fair, go on Farm Bureau Day.

The directors and superintendents promise that all the judging will be done early in the week, so that every farmer may see where the ribbons are placed immediately upon the conclusion of the Farm Bureau Day program.

The opportunity of hearing Sam Jordan again will be worth the trip. Our Missouri talent has not been overlooked in making up the program. Paul B. Naylor will deliver one of his famous orations.

It is planned to have a free discussion from all the members present on the big problems before the farmers at this time. The program will not be filled entirely with famous speakers, but any farm bureau member who wishes, may participate in the discussion.

IRISH MINISTER OF AGRICULTURE IN U. S.

Laurence Glanell, member of Parliament for North Westmeath and minister of agriculture in the Irish Republican government, is on his way from the Emerald Isle to the United States on a "National Mission." The steamer upon which he sails is not named.

HE MIS-HIC-CALCULATED

In the good old days, months ago, a baseball player turned up at the game with a bad one. When he went to bat he said to the umpire, with a silly smile, "I see three bats and three balls. What am I—his—to do?"

"Hit the middle ball," said the umpire.

But the boozey batter struck out. "Hang it, Bill," said the captain, "why didn't you hit the middle ball, as the umpire told you?"

"I did," replied Bill, with an injured air, "only I hit it with the—hic—outside bat."—Exchange.
